Depr
[96x550]ession
[180x550]and Dementia:
[37x491]cause, consequence or
[37x429]coincidence?

Presented by:
Professor Osvaldo Almeida, MD, PhD, FRANZCP,
(pictured top right)
UWA Medical School, The University of Western Australia.

This presentation will address the association between depression and dementia.

It will cover:
- The evidence suggesting that depression is a risk factor for dementia
- The impact of depression on people living with dementia
- Current management strategies for depression among people living with dementia

Who should attend?
Health professionals with an interest in dementia care, furthering their dementia knowledge, keeping up to date with recent research and networking with colleagues.
